

# E-commerce: The paypal widgets

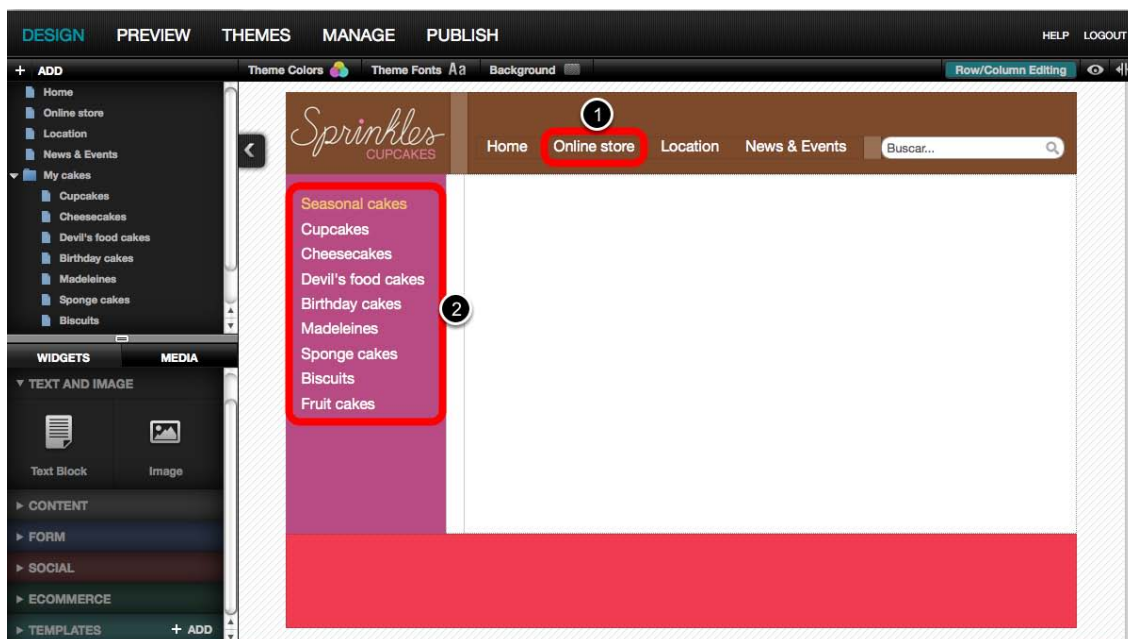

Example of how to create a multi-item e-commerce page with the PayPal widgets

## STEP 1. Create an account in PayPal

Sign up to get an account with [PayPal](#)

## STEP 2. Create a page for your store

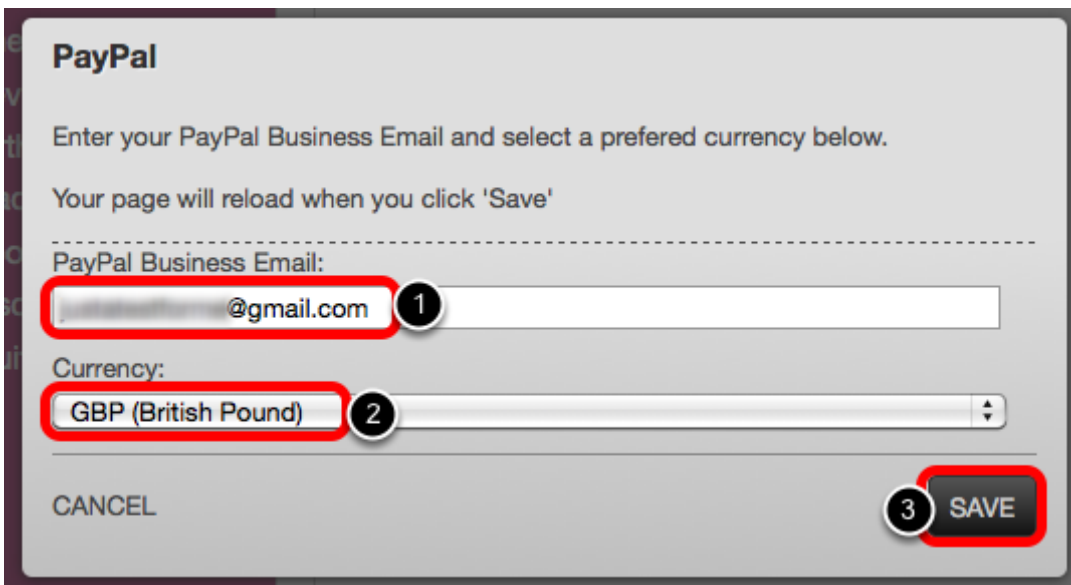

In this example, the site is selling cakes so the store page is called '**Online Store**' (1) and inside of it you can see the different pages I added as categories to my products (2)

### STEP 3. Import images for your items

For each item in the store, we need an image 150 x 150 pixels. If you use larger images the PayPal widget will scale them down but if you want the store page to load quickly it's a good idea to scale the images to the right size before you import them into the Service.

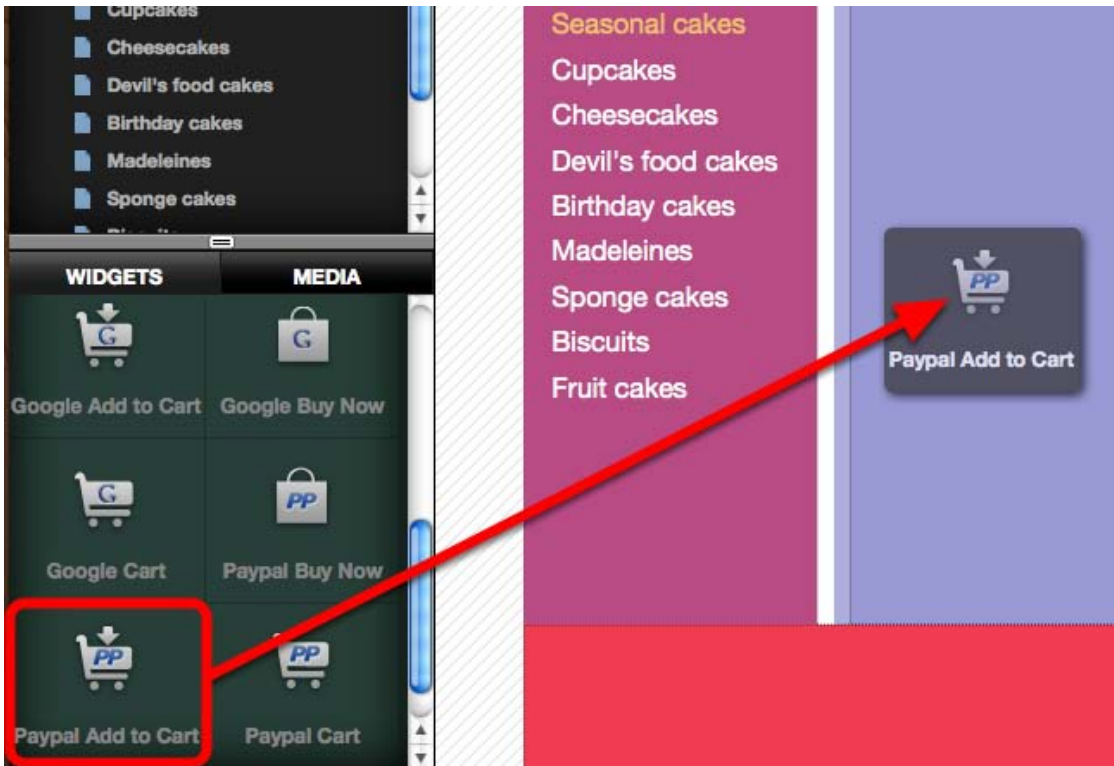

### STEP 4. Set your PayPal Business Email

A screenshot of a 'PayPal' configuration form. The form has a title 'PayPal' and instructions: 'Enter your PayPal Business Email and select a preferred currency below. Your page will reload when you click 'Save''. There are two main input fields: 'PayPal Business Email:' with a text input field containing a redacted email address followed by '@gmail.com', and 'Currency:' with a dropdown menu showing 'GBP (British Pound)'. At the bottom left is a 'CANCEL' button, and at the bottom right is a 'SAVE' button. Red boxes and numbers 1, 2, and 3 highlight the email field, the currency dropdown, and the save button respectively.

The first time you click on a PayPal widget you will be prompted for your PayPal Business Email (1). You can change this later in the MANAGE panel.

Select your currency (2) and click Save (3)

## STEP 5. Add the first item to the page

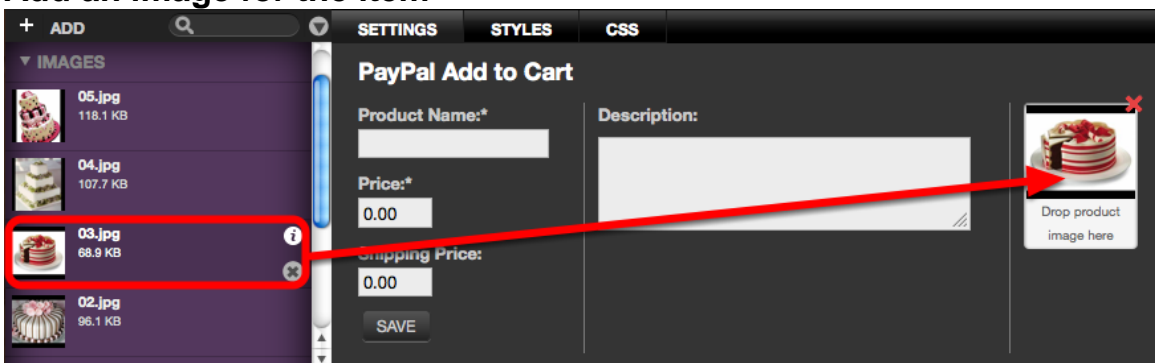

Drag a **PayPal Add To Cart** widget onto the page

Click on the editing icon

## Add an image for the item

Drag the image from your media tab to the image box in the options panel for the Add to Cart widget

Add details for the item

**SETTINGS** **STYLES** **CSS**

### PayPal Add to Cart

Product Name:\*

Price:\*

Shipping Price:

**SAVE** **1**

Description:  
Chocolate christmas cake covered with vanilla fondant. Satisfy any sweet tooth craving with this delicious dessert.

  
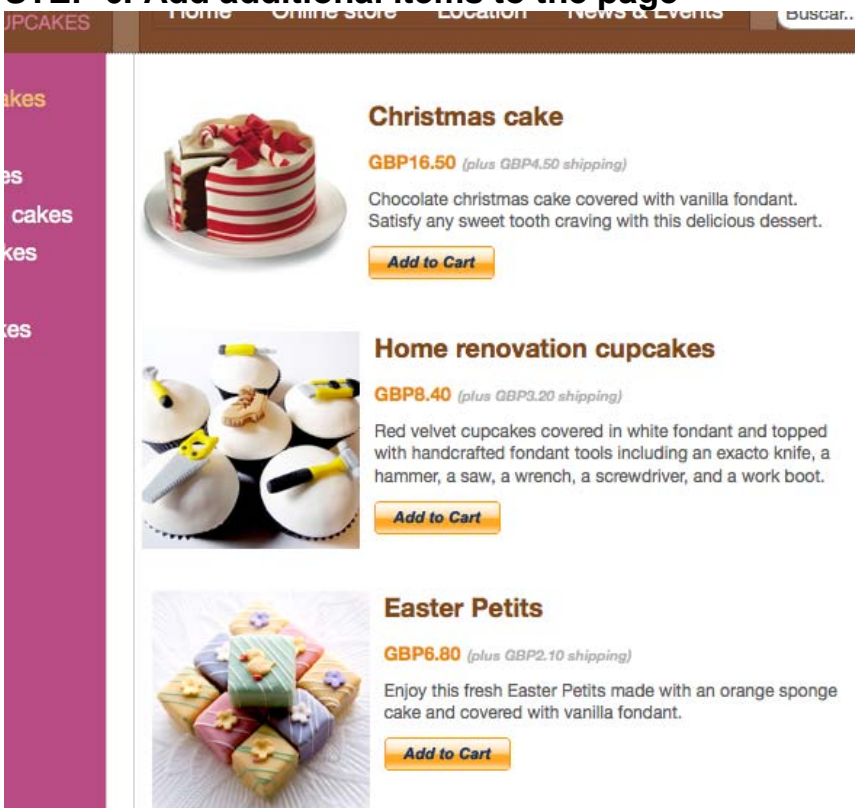

Drop product image here

Click the save button (1)

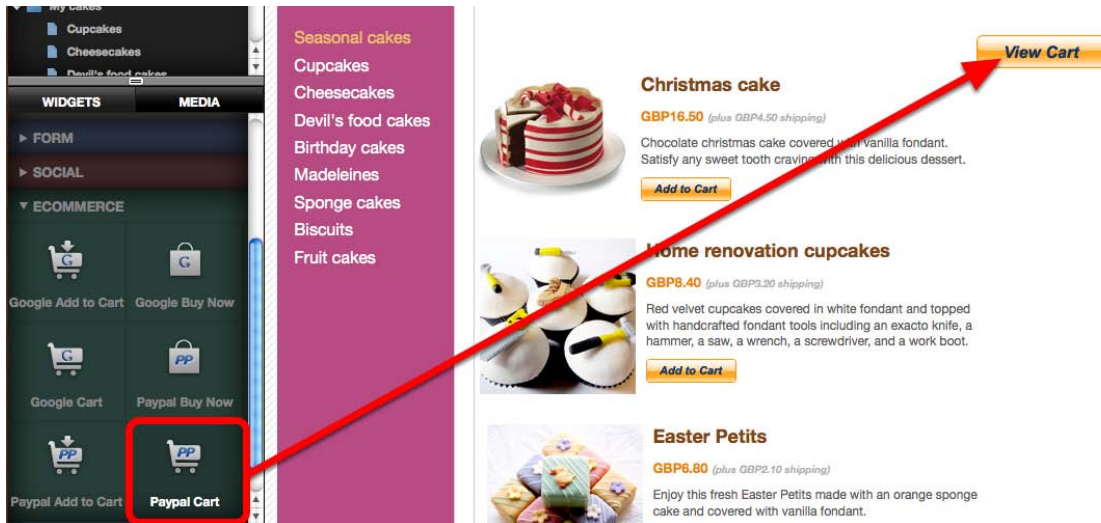

When you click Save, the item will appear on the page

**STEP 6. Add additional items to the page**

## STEP 7. Add the PayPal Cart widget to the page

## STEP 8. Test your online store

Click the preview button to try out your cart

Click an Add to cart button to see your cart work

*Sprinkles*

The screenshot shows a shopping cart page for 'Sprinkles'. The cart contains two items:

Description	Price	Quantity	Amount
Easter Petits	6,80	1 <a href="#">Update</a>   <a href="#">Remove</a>	£6,80
Home renovation cupcakes	8,40	1 <a href="#">Update</a>   <a href="#">Remove</a>	£8,40

Summary:

Item total:	£15,20
Shipping and handling	£5,30
<b>Total:</b>	<b>£20,50 GBP</b>

Buttons: [Continue](#), [Pay Now](#), OR [Check out with PayPal](#) (The safer, easier way to pay)

Secure checkout by **PayPal**

If the items in the cart appear listed here then everything is working. All you need to do now is publish the site.
